Fix Pack Contents

Installation of this fix pack addresses the following issues, the details of which are outlined below.

- IS-6776

Description of Issues Fixed

The application of this update addresses the following issues.

IS-6776: Data Last Loaded display in UI is not sync with application timezone

During testing it was discovered that in the Enterprise version of the product, the Data Last Loaded date displayed in Dashboards and Data Views could be out of sync with the system's timezone. This issue has been fixed.

Fix Pack Installation: Enterprise Only

Installation Steps

To install this Fix Pack on the Enterprise Edition* of Infogix Data3Sixty DQ+, perform the following steps.

1. Download the Fix Pack into the */tmp* folder
2. Give execute permission to the downloaded Fix Pack, for example:

```
chmod 777 sagacity_IS-2.1.2-201804271007-9-fixpack.sh
```
3. Extract the downloaded Fix Pack, simply by running its name as a command. For example:

```
./sagacity_IS-2.1.2-201804271007-9-fixpack.sh
```

Extracting a Fix Pack for the first time will create a directory at *opt/infogix/sagacity/maintenance*.
4. Execute the `apply-patch` command from within *opt/infogix/sagacity/maintenance/<patchName>/bin*

To verify the Fix Pack has been applied, use *Help->About* in the Infogix Data3Sixty UI. The product's *Updates* information should be updated.

*Note: Fix packs are pushed to the Cloud Version of Infogix Data3Sixty DQ+ automatically, so these steps should be ignored.
