

Infogix Installer Documentation

Use Adobe Reader 9 or later to view, print, and search the documentation that you will need to install and deploy an Infogix application. If you don't have Adobe Reader, [click here to download the latest version](#).

Infogix Server Installation Guide

Install Infogix applications on JBoss, WebSphere, or WebLogic.

Infogix Server Upgrade Guide

Upgrade existing Infogix applications on JBoss, WebSphere, or WebLogic. Refer to the Release Notes for your application to learn about any product-specific upgrade considerations.

Infogix Properties Guide

Read the descriptions and values for the application server, database, security directory, embedded security directory, user information directory, and product-specific properties.

Infogix Console-based Deployment Guide for WebSphere

Deploy your Infogix application through the WebSphere Console. Use this guide in conjunction with the Infogix Server Installation Guide.

Infogix Console-based Deployment Guide for WebLogic

Deploy your Infogix application through the WebLogic Console. Use this guide in conjunction with the Infogix Server Installation Guide.
